Subject: FINAL VERSION OF SUPERFUND RESPONSE

Final below – David, please send this out to your lists – Jahan, if you have access to the system, can you also send it out? No harm in some people getting it twice. I can send it to the list of folks that Nancy sent me following the storm, and will be sure the White House and TCEQ have it. Thanks for your help – Liz

**STATUS OF SUPERFUND SITES IN AREAS
AFFECTED BY HARVEY**

WASHINGTON (September 2, 2017) – *Despite misleading*

and inaccurate reporting, the facts are that EPA and TCEQ are working together, along with other local, state, and federal authorities and emergency responders around the clock to address the human health and environmental impacts of Hurricane Harvey and its effects, especially historic and devastating flooding throughout Southeast Texas. With regard to the status of Superfund sites:

EPA has conducted initial assessments at 41 Superfund sites in the impacted areas using aerial images, as well as direct contact with the parties responsible for on-going cleanup activities. EPA has determined that 28 Superfund sites in the area do not currently show damage or excessive flooding associated with Harvey. EPA determined that 13 sites have been flooded and/or are experiencing possible damage due to the storm. Of these sites, two (Falcon Refinery and the Brine Service) have been inspected and it has been determined that they do not require emergency cleanup; although, additional sampling in the area will continue to be conducted.

Eleven sites, including: Bailey Waste Disposal, French LTD, Geneva Industries/Fuhrmann Energy, Gulfco Marine, Highland Acid Pit, Malone Services, U.S. Oil Recovery, Patrick Bayou, Petro-Chemical Systems, Triangle Chemical, and San Jacinto Waste Pits have not been accessible by response personnel. Teams are in place to investigate possible damage to these sites as soon flood waters recede, and personnel are able to safely access the sites.

The San Jacinto Waste Pits site has a temporary armored cap designed to prevent migration of hazardous material; the cap will be inspected as soon as it is safe for teams access the site. Based on forecasted river conditions, this inspection is planned for Monday, by boat. EPA has dive

teams to survey the cap underwater when conditions allow.

EPA, TCEQ and other authorities will continue to provide additional updates as we gather them. We encourage the community to continue to follow the expert safety advice of local officials.

For additional information from TCEQ, please visit:
<https://www.tceq.texas.gov/response/hurricanes>

assist
with
this
information.

I
am
working
on
a
draft
statement
now
using
the
most
recent
EOC
report;
but,
please
send
us
additional
details
on
specific
Superfund
sites
and

**water
testing
details
as
soon
as
possible
—
with
the
next
few
hours,
so
we
can
work
that
into
our
statement.**

I
am
going
to
connect
with
TCEQ
so
they
know
that
we
are
working
on
this
statement
also.

Thank
you

Subject:

Superfund

Christie,
Amy,

Following
up
from
earlier
in
the
week,
AP
is
still
seeking
details
on
what
EPA
is
doing

regarding
flooded
Superfund
sites.
EPA's
press
release
on
Wednesday
said
EPA
is
"assesses
conditions
at
the
NPL
Superfund
sites
in
the
storm's
impact
area"
and
was
"began
rapid
assessments
at
two
sites
that
are
accessible
after
floodwaters
have
receded
and
this
work
will
continue."

Which
sites
were
those?
What
did
EPA
find?
Did
EPA
take
samples
to
determine
whether
contaminates
leached
out
into
floodwaters?
Were
more
sites
visited
and
assessed
on
Thursday?
How
many
people
has
EPA
assigned
to
this
work?

I
will
add
that
AP
has
visited

three
Houston-
area
superfund
sites
yesterday.
All
were
still
heavily
flooded
and
we
saw
no
state
or
federal
personnel
there
(or
anyone
else).
We
are
visiting
and
documenting
more
sites
today.

Michael
